

CLASSIC LUXURY.
CONTEMPORARY LIFESTYLE.

Breathe in the air heavy with aroma of
flowers. Stretch on your la-z-boy and
spread your arms gazing stars.
Flick the latest 3D TV and enjoy the
movie. Relish your own piece of
picturesque garden. Live a life you
have always aspired for. A life full of
exclusivity and elusiveness when you
want to be just yourself.
Live where luxury surrenders
at your feet.

THE MAGIC OF CLASSIC LUXURY

Those were the good old days!

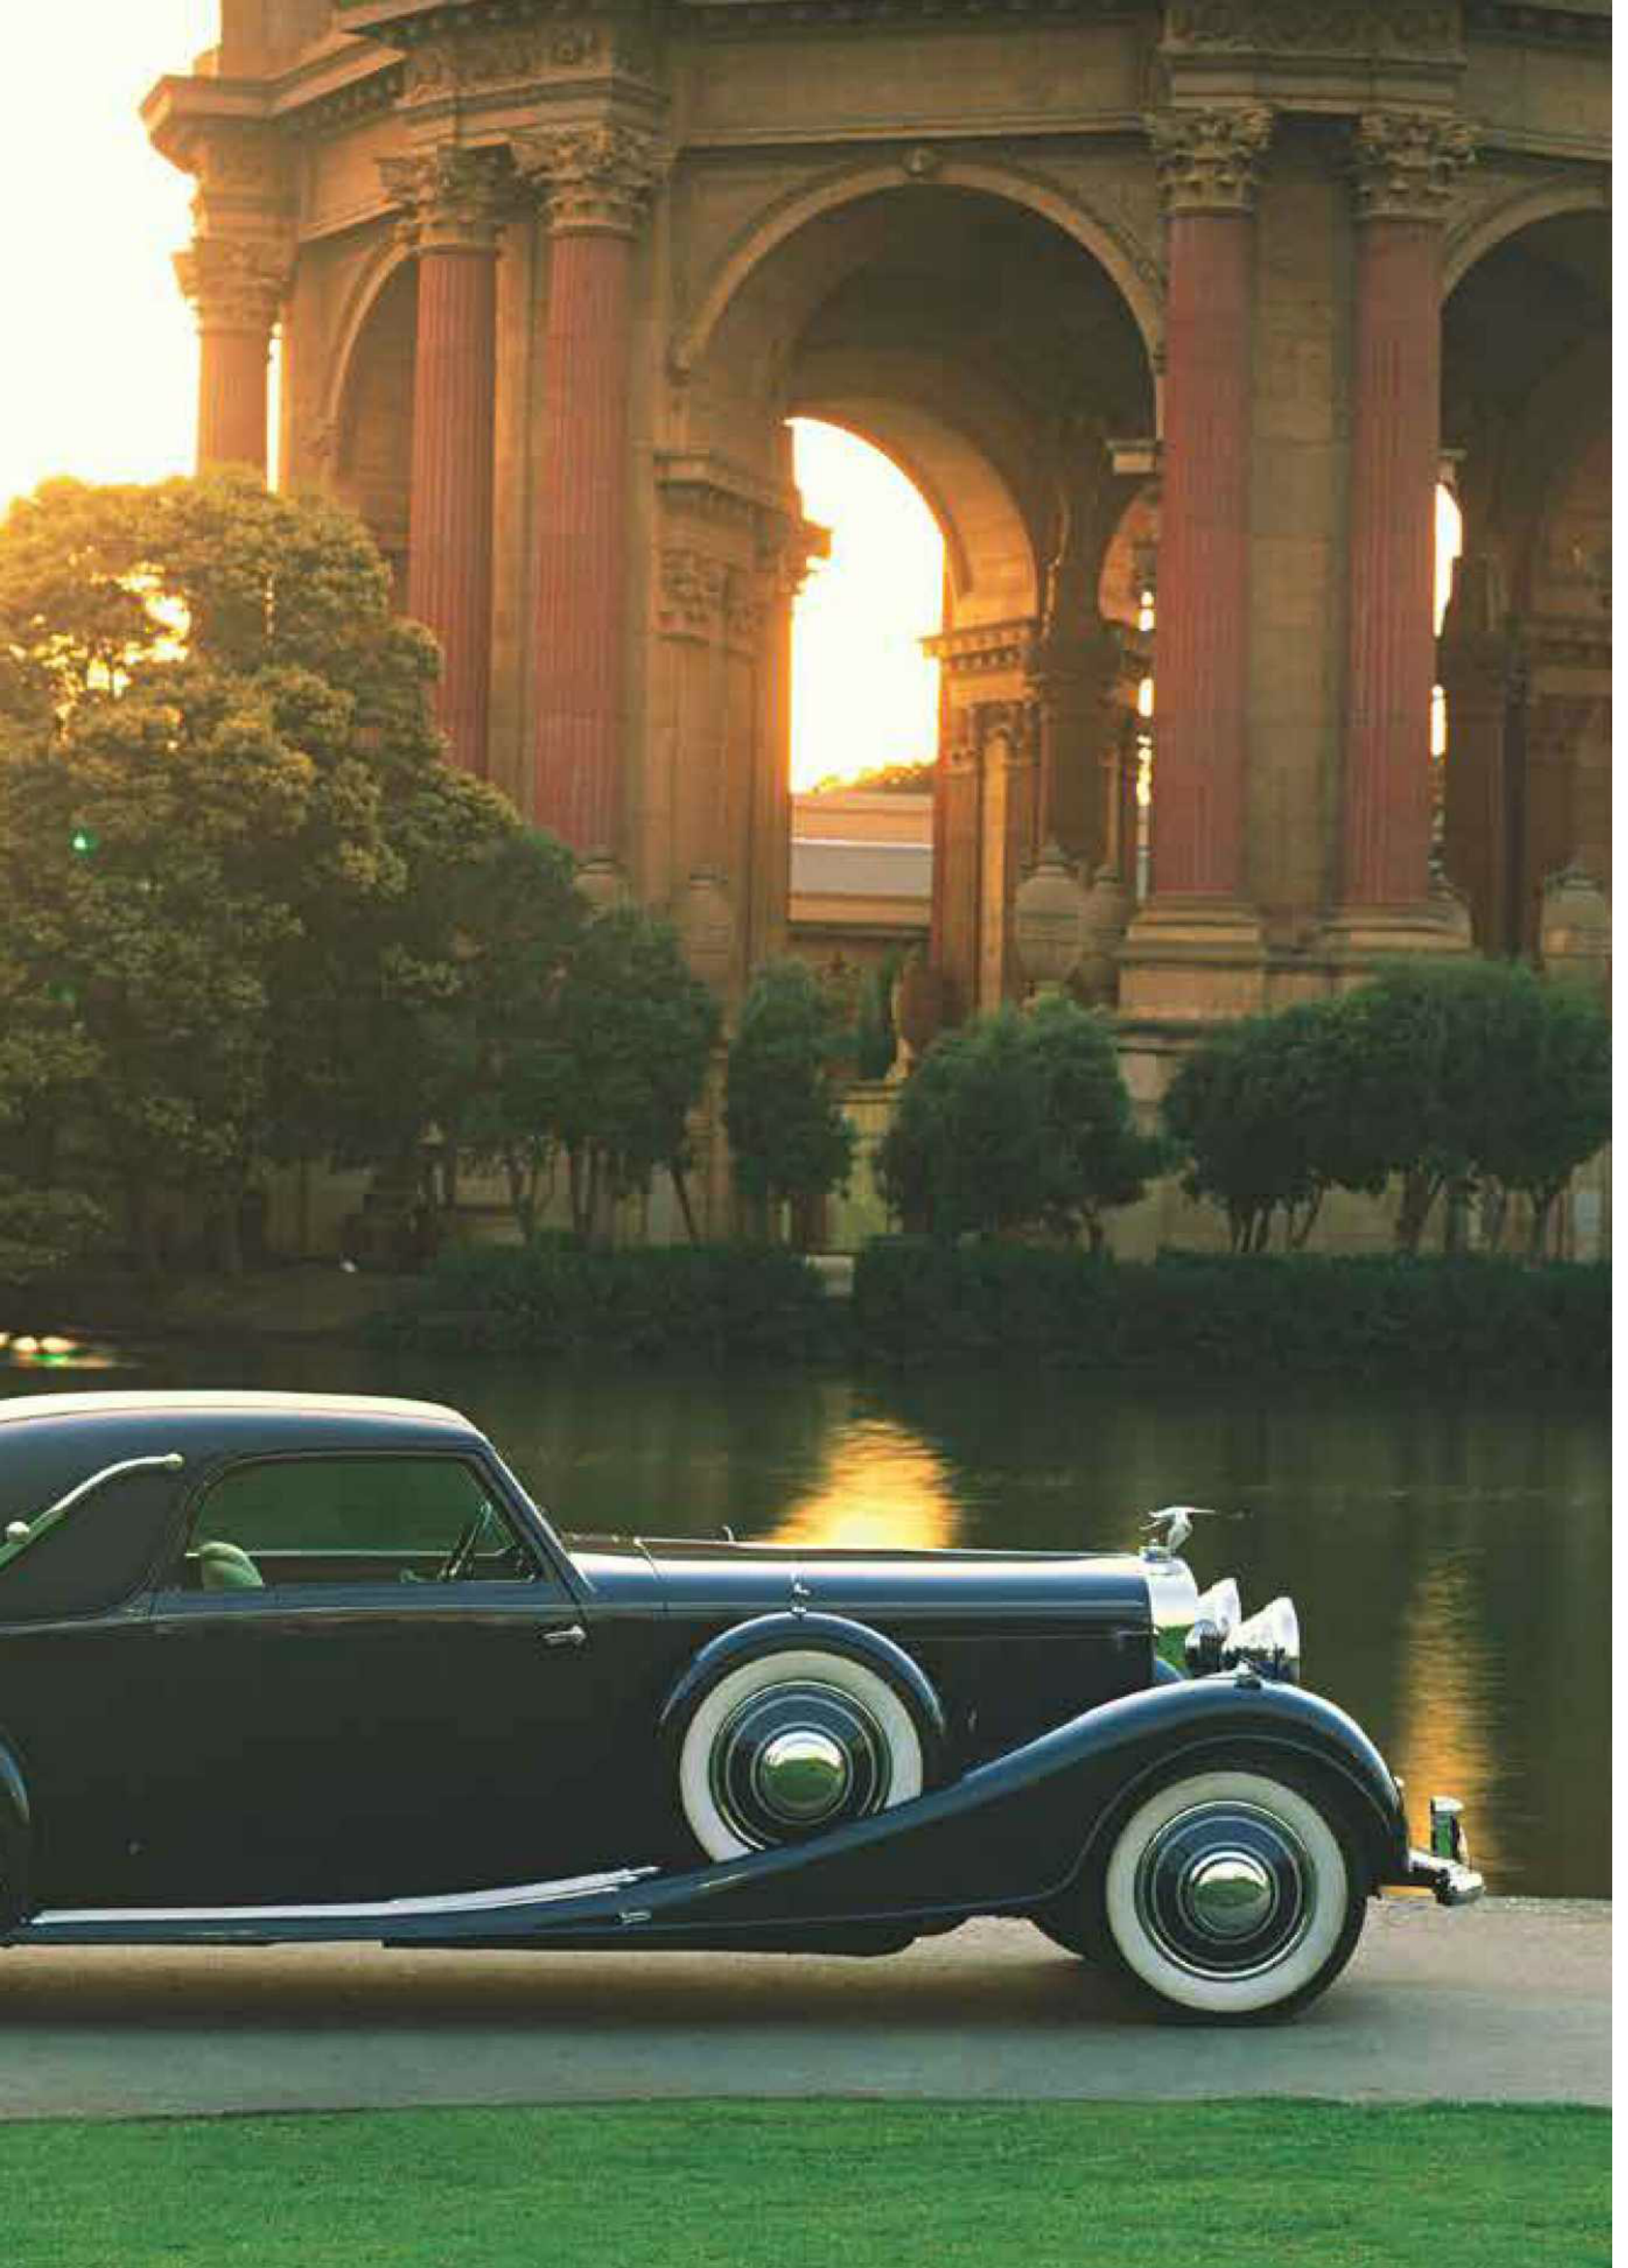

Sprawling lawns that stretched beyond the horizon.

From apparel to accessories, everything was
customised. Crystal chandeliers shimmered over
grandiose staircases. Opulence was abundant.

Such was the luxury of yesteryears.

It's true, those were the days!

THE ADVENT OF THE CONTEMPORARY

"This is the time to live in" ... and live with ease.

Over the years world changed - time became the most sought after feature and technology brought the future closer.

Today, smart homes have replaced homes, technology has replaced labour and remotes have taken over switches, dinner starts cooking by itself and everything that life needs is just a stone's throw away. This is the time for integrated cities with schools, colleges, malls, medical centres, gymnasiums, entertainment spots ... all that life may need.
